EXPERIENCE

Sleepy Giant Entertainment Newport Beach, CA 4/09 - Present

Web Developer

- Integrate new features into pre-existing "platform" code base
- Debug issues with legacy code, implement fixes, re-factor/update existing code
- Work closely with a team of developers to ensure deadlines are met
- Organized major releases for projects, responsible for release by deadline
- Managed features from "client request" to completion

Freelance Web Developer Huntington Beach, CA 7/07 - Present

Web Developer

- Ran a freelance web company through www.eighthdegree.net
- Develop full-featured websites using PHP & MySQL to meet clients needs
- Create custom, fully interactive content management systems
- Manage projects through their entire life-cycle
- Self manage schedule to meet deadlines while producing quality work

Cybernet Business Solutions Huntington Beach, CA 1/04 - 10/04

Webmaster & Web Developer

- Created HTML & CSS to match comps to the pixel
- Updated customer websites on a daily basis
- Contacted clients for one on one discussion of changes made or needed
- Used design skills to enhance elements of pages, or manipulate images
- Self managed schedule to complete work by promised deadlines
